About Us.

YOUR TRUSTED MARITIME ANCHOR IN BANGLADESH

M/S B. S. TRADING is a premier, fully integrated shipping agency based in Chattogram, Bangladesh. Established in 2018, we specialize in providing world-class maritime logistics, port agency, and comprehensive cargo handling solutions at the country's primary commercial gateway. We connect local trade with global maritime networks by pairing deep local expertise with international regulatory compliance. Driven by an elite, highly skilled professional team, we navigate complex port procedures effortlessly to guarantee fast, safe, and cost-effective vessel turnarounds.

At M/S B. S. TRADING, strict professionalism and operational integrity form the bedrock of everything we do. Because global trade never stops, our dedicated team provides uninterrupted 24/7/365 round-the-clock services to support shipowners, charterers, and cargo operators worldwide. Whether managing intricate freight movements or delivering elite vessel husbanding services, we stand as your ultimate anchor of trust and efficiency in the Bay of Bengal.

Mission & Vision.

MISSION

Our mission is to deliver unparalleled, high-efficiency shipping agency services at the Port of Chattogram by leveraging profound local insights, adopting advanced logistics technologies, and prioritizing our clients' commercial goals. We aim to build enduring global partnerships by consistently reducing vessel port stays, minimizing operational overheads, and maintaining absolute regulatory transparency. Through our hard work, we actively contribute to the economic growth of Bangladesh by strengthening its maritime trade routes.

VISION

Our vision is to become the most trusted, innovative, and technologically adaptive shipping agency in Bangladesh, setting the benchmark for maritime excellence across the South Asian region. We aspire to expand our operational footprint beyond Chattogram to all major and emerging sea-ports in the country, fostering a seamless maritime network. By integrating sustainable logistics practices and digital tracking mechanisms, we aim to revolutionize how port agency services are delivered locally. We envision a future where M/S B. S. TRADING is synonymous with absolute reliability, acting as the first-choice gateway for international fleets entering the Bay of Bengal. Through sustainable growth, strategic partnerships, and unyielding service quality, we intend to actively drive the modernization of Bangladesh's maritime trading infrastructure.

Our Core Values

- Integrity: We conduct all transactions with absolute financial transparency, honesty, and strict anti-bribery compliance.
- Efficiency: We treat time as a critical resource, engineering our workflows to minimize off-hire time and port stays.
- Client-Centricity: Every solution is tailored to the specific financial, technical, and operational constraints of our principals.
- Safety First: We enforce a zero-compromise approach toward maritime safety, environmental protection, and crew welfare.

Core Services

CUSTOMS BROKERAGE/CLEARING & FORWARDING (C&F) AGENT

- HS code classification;
- Duty & tax calculation;
- Documentation preparation (C&F, commercial invoices, packing lists);
- Bangladesh Customs compliance.

Port Agency & Vessel Husbandry

We offer a comprehensive suite of port agency and vessel husbandry services designed to cater to the diverse needs of ship owners and charterers. Our team expertly handles all pre-arrival planning, formal inward and outward port clearances, and coordinates closely with the Chittagong Port Authority (CPA). We manage the delivery of high-quality marine bunkers, freshwater, lubricants, and deck/engine provisions. By maintaining a constant line of communication between the ship master and port officials, we anticipate and mitigate potential delays before they occur. Our husbandry services also extend to technical coordination, such as organizing emergency underwater hull surveys, arranging local workshops for machinery repairs, and facilitating the swift clearance and delivery of critical ship spares under ship-stores customs regulations.

Managing crew changes efficiently is vital to maintaining smooth vessel operations and high morale. M/S B. S. TRADING provides end-to-end crew management support at the Chattogram port and outer anchorage. We handle the entire documentation process, including secure OK-to-Board letters, visa-on-arrival processing, sign-on/sign-off logistics, and shore passes. Our team coordinates safe physical transfers via designated launch services to and from the outer anchorage. We also partner with leading local medical centers to provide immediate, high-quality medical and dental assistance to crew members, including emergency medical evacuations. From hotel accommodations and domestic ticketing to final international repatriation, we ensure that seafarers experience a stress-free transition while remaining fully compliant with immigration laws.

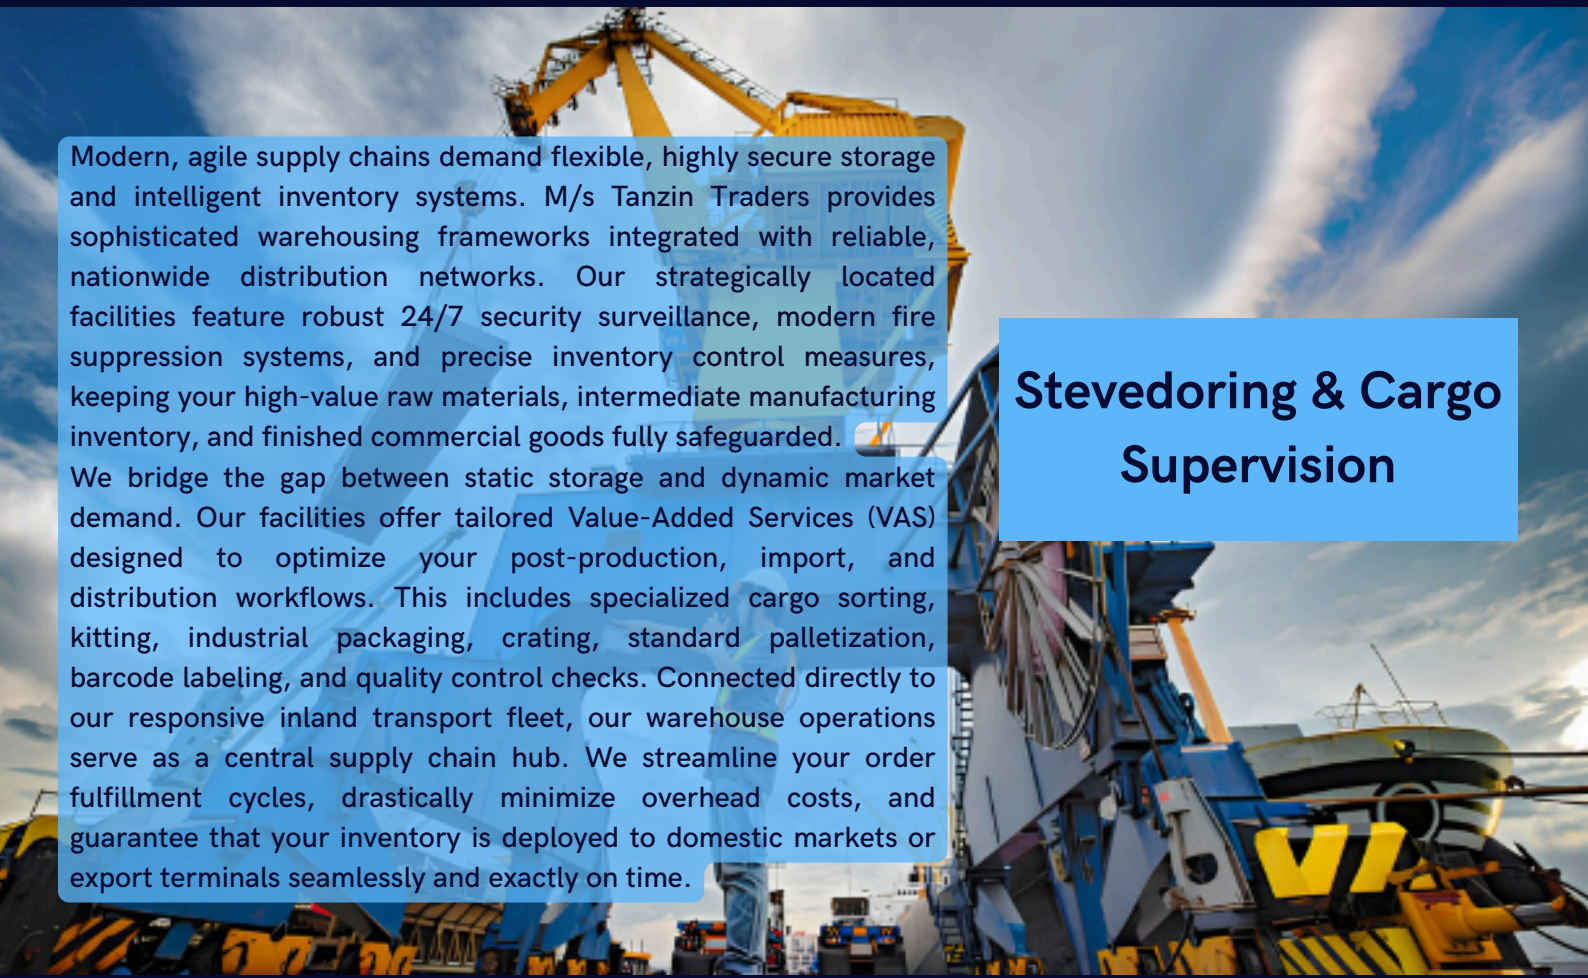

Crew Management & Repatriation

Customs Documentation & Cargo Clearance

The regulatory landscape at Bangladeshi ports can be complex, but our specialized customs desk ensures complete compliance and zero delay. We take full charge of filing inward and outward cargo manifests with customs authorities, calculating port dues, and processing complex import/export documentation. Our deep understanding of local customs tariffs, bilateral trade agreements, and port regulations allows us to expedite the clearance of cargo and ship spares. We work closely with cargo surveyors, terminal managers, and customs officials to resolve any administrative discrepancies swiftly. This proactive regulatory oversight drastically minimizes the risk of demurrages, fines, or legal disputes, providing our global clients with absolute peace of mind during their port calls.

Modern, agile supply chains demand flexible, highly secure storage and intelligent inventory systems. M/s Tanzin Traders provides sophisticated warehousing frameworks integrated with reliable, nationwide distribution networks. Our strategically located facilities feature robust 24/7 security surveillance, modern fire suppression systems, and precise inventory control measures, keeping your high-value raw materials, intermediate manufacturing inventory, and finished commercial goods fully safeguarded.

We bridge the gap between static storage and dynamic market demand. Our facilities offer tailored Value-Added Services (VAS) designed to optimize your post-production, import, and distribution workflows. This includes specialized cargo sorting, kitting, industrial packaging, crating, standard palletization, barcode labeling, and quality control checks. Connected directly to our responsive inland transport fleet, our warehouse operations serve as a central supply chain hub. We streamline your order fulfillment cycles, drastically minimize overhead costs, and guarantee that your inventory is deployed to domestic markets or export terminals seamlessly and exactly on time.

Stevedoring & Cargo Supervision

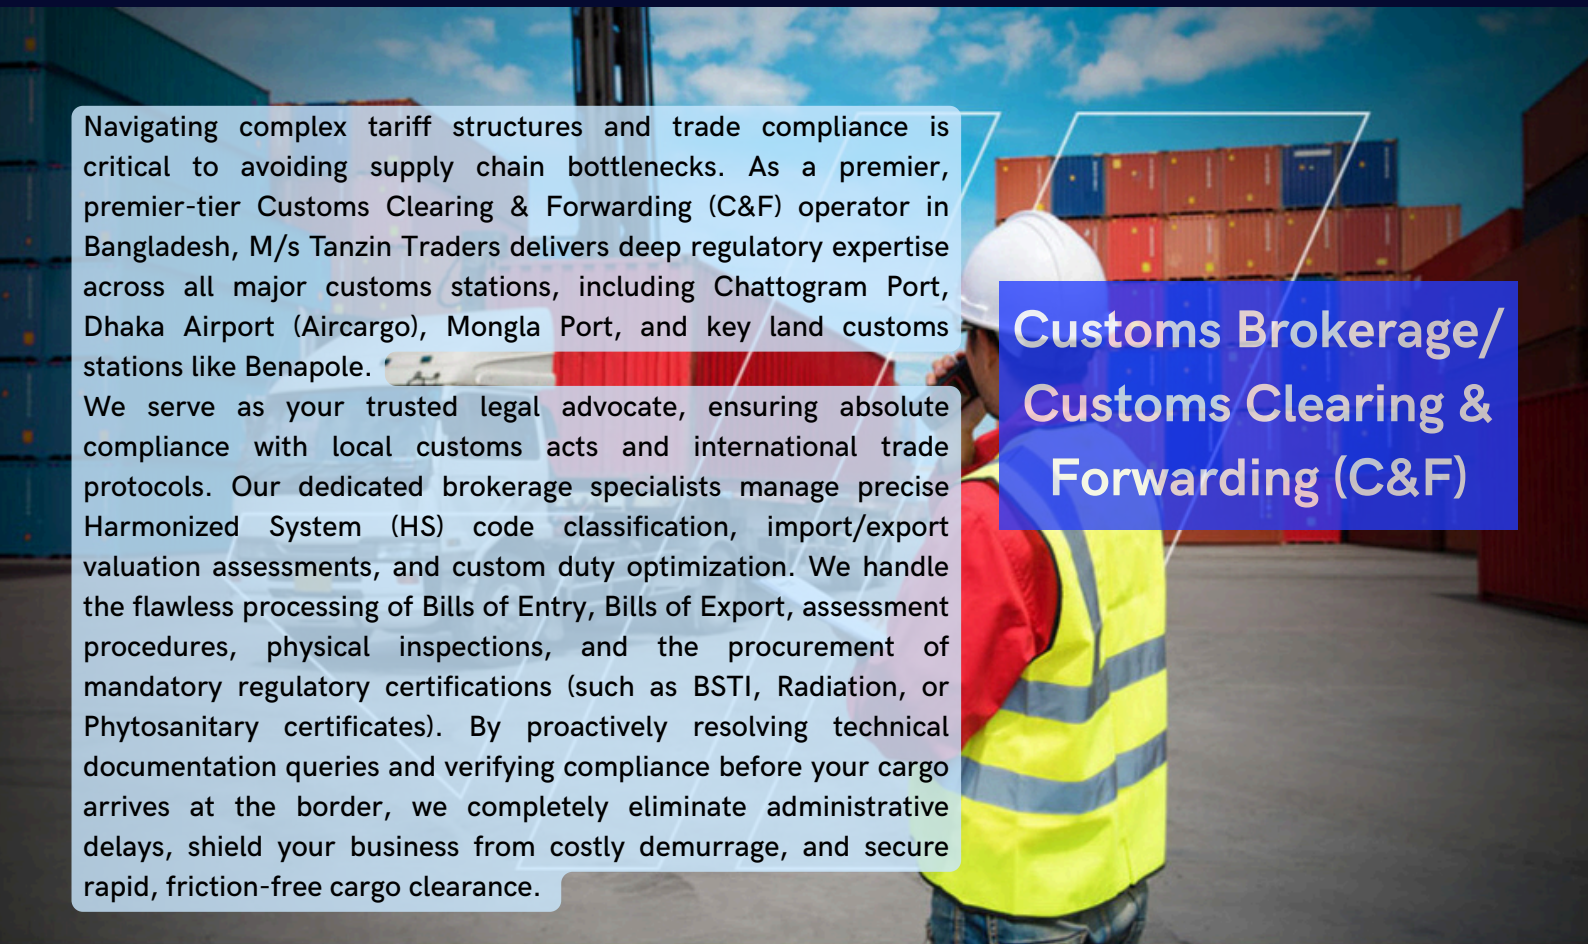

Inland Shipping & Road Transport Logistics

We provide a seamless, multi-modal supply chain solution by combining robust domestic road transport with strategic inland shipping across Bangladesh. Utilizing a modern, dependable network of prime movers, flatbed trailers, and covered vans, we safely haul containerized (FCL/LCL), break-bulk, and heavy-lift project cargo directly from Chattogram port terminals.

To bypass highway congestion and optimize transit budgets, we leverage Bangladesh's extensive river networks. We coordinate the cost-effective movement of bulk and containerized cargo via inland container terminals (ICTs) and river ports to major industrial hubs like Dhaka and Narayanganj. By integrating reliable land fleets with efficient riverine barging, we offer an eco-friendly, streamlined logistics framework. This dual-network approach drastically slashes domestic transport costs while ensuring strict professionalism, safety compliance, and secure last-mile delivery directly to your destination.

Navigating complex tariff structures and trade compliance is critical to avoiding supply chain bottlenecks. As a premier, premier-tier Customs Clearing & Forwarding (C&F) operator in Bangladesh, M/s Tanzin Traders delivers deep regulatory expertise across all major customs stations, including Chattogram Port, Dhaka Airport (Aircargo), Mongla Port, and key land customs stations like Benapole.

We serve as your trusted legal advocate, ensuring absolute compliance with local customs acts and international trade protocols. Our dedicated brokerage specialists manage precise Harmonized System (HS) code classification, import/export valuation assessments, and custom duty optimization. We handle the flawless processing of Bills of Entry, Bills of Export, assessment procedures, physical inspections, and the procurement of mandatory regulatory certifications (such as BSTI, Radiation, or Phytosanitary certificates). By proactively resolving technical documentation queries and verifying compliance before your cargo arrives at the border, we completely eliminate administrative delays, shield your business from costly demurrage, and secure rapid, friction-free cargo clearance.
